25X1D      SUMMARY      25X1D      25X1D

This military installation is located approximately 3 kilometers (km) south of Berdichev, and about 1.5 km south of Berdichev Army Barracks Zhevtnevyys (Figure 1). Berdichev Army Barracks Semenovka West is divided by the main road connecting Berdichev and Kalinovka. A single-track rail line crosses the main road at the southern edge of the area and runs into the city of Berdichev.

The installation (Figures 2 and 3) contains a probable ammunition storage area, a drill field, six small arms ranges, barracks, administration, storage, vehicle storage/maintenance, and support buildings. A large tracked/wheeled

vehicle driver training area is adjacent to the barracks area on the west side.

A comparative study of four KEYHOLE missions from [REDACTED] reveals little change in the area. In comparing the latest interpretable photography of [REDACTED] which is snow covered, with the summer photography of [REDACTED] several small buildings become apparent. This area appears to be active on all missions. There are approximately 60 tents apparent in the southeast section of the barracks area on the [REDACTED] photography.
